

# Orka

## Operation

- Hook up fluid to the Orka. Only use the following Look Solutions Fog Fluid:
  - Quick-Fog: thick, quick dissipating fog fluid
  - Regular-Fog: thick, long-lasting fog fluid
  - Slow-Fog: thick, extremely long-lasting fog fluid
- Connect to main power supply
- Connect fan. Fan will not shut off automatically, disconnect fan when not in use to avoid overheating.
- Set the desired output and press the enter button to begin fogging. Press enter again to discontinue fogging.

## Notes

- Do not transport with fluid in the case.
- Always disconnect the fan before transporting. Fan does not shut off automatically.
