

# Tiny CX Fogger

## Operating

- Pour Tiny Fluid into fluid reservoir tank and firmly close lid.
- Insert the battery until it clicks into place.
- Press and hold start button to produce smoke.
- Warm up time: 1 second

## Notes

- Tiny CX only uses Tiny Fluid from Look Solutions.
- Remove battery from Tiny CX when not in use.
- A discharged battery can be charged within 2 hours.
- There will be no fog if the fluid reservoir is empty or if the battery is discharged.
